From Marie - Suggest I ask Marie if I can forward to the Navy to answer ?

Draft response

Dear Marie,

Thank you for your questions. The Navy is the lead on the cleanup, and EPA oversees its work. Since the Navy has the detailed data more easily readily available, I'd like to forward your questions to the Navy to respond to you directly, with a cc to EPA. Please let me know if you have any concerns about that approach. Thanks!

- Lily

Hello,

I'm sorry to be getting these questions to you almost a full week after the meeting, it's been a busy week. Here are some questions Lucien and I had that we didn't get a chance to ask.

- 1) Which sites are soil/debris being removed to?
- 2) What exposure did workers face during the removal of the sewer systems?
- 3) What were the levels of contamination found in the area surrounding the sewers before and after removal?
- 4) Will ground water be monitored in real time, continually, or by request?

Thank you again so much for having us and for hosting the meeting.

Thanks,  
Maria, Lucien, and the UCSC team
